DETAILED ACTION

Status of Application

Receipt of the Appeal Brief filed 02/19/04 is acknowledged.

Claims 1-29 are pending. Claims 1-29 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrea L. Pabst on 05/28/04.

The application has been amended as follows:

In the Claims:

Claim 1, line 7, after the word "ingestion", the phrase "wherein the delayed release portion is achieved by coating a core or granulations with at least one delayed release control polymer" has been added.

Allowable Subject Matter

Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

The instant invention is drawn to a biphasic antihistamine composition in daily oral uni-dosage or divided dosage form which comprises: (a) a therapeutically effective amount of a sedating antihistamine to inhibit antihistamine release for a duration of about 4 to 12 hours, and (b) a therapeutically effective amount of non-sedating antihistamine to inhibit antihistamine release for a duration of 10 to 20 hours, with a delayed release 6 to 10 hours after ingestion, wherein the delayed release portion is achieved by coating a core or granulations with at least one delayed release control polymer.

The primary reason for allowance is that the inclusion of the specific limitation of how the delayed release portion is achieved (i.e., by coating a core or granulations) was agreed upon in a telephone interview with Applicant(s) attorney. It was noted in the interview that the prior art does not teach a biphasic antihistamine composition comprising a delayed release non-sedating antihistamine in combination with a sedating antihistamine, whereby the delayed release portion is obtained by coating a core or granulations with at least one delayed release control polymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
